

DE BAANDERIJ - AID & RELIEF *Just in Time!*

DB at AidEx 13-14 November, Brussels

AidEx humanitarian event brings together the many crucial organisations working in aid delivery, in order to discuss obstacles and together plan better strategies and implement ideas. DB has an idealistic vision with a realistic mandate. For that reason DB joins AidEx showing how to make the difference. We will welcome you out of the blue with a 4x4 truck plus interesting... AidExamples! And our new film will be shown, produced by www.Orientation.nl/en.

NEW used 4x4 RHD vehicles

DB has been supplying LHD vehicles for almost 15 years. Nowadays we're also involved in delivery of new and second hand RHD vehicles. For a medical project in Zimbabwe, Medical Mission International was looking for a RHD LandRover Defender Ambulance. DB found it and because the price was so interesting, MMI ordered a second one directly. The medical team will be surprised! For all your search demands just drop an email to info@debaanderij.nl.

Saved Tools

DB offers logistic solutions all over the globe. With a large agent network shipments arrive 'just in time'. For the Dutch Saved Tools Foundation, DB stored and shipped over 50.000 refurbished tools last few months. The unique not-for-profit way with professional help and voluntary support results in huge savings. No longer paying for overhead costs! Should you be interested in saving money as well? Visit www.debaanderij.nl or www.148.nl and convince yourself.
